

Genetics Of Adiposity Leipzig

2nd Leipzig International Meeting for Interdisciplinary Obesity Research

September 28th to October 1st, 2018

Penta Hotel Leipzig (<https://www.pentahotels.com>)

The GOAL meeting is dedicated to the **cross-cultural, interdisciplinary research** on obesity, integrating various aspects of **genetic research** including identification and functional analyses of genes for complex traits, their evolution, up to the potential translation of this knowledge in medicine. With an exclusive list of renowned speakers, we particularly approach and invite early and mid-career enthusiastic scientists to join us in a lively debate and exchange. Application deadline is Juli 31, 2018.
